

Analysis of Students Feedback on Curriculum 2020-21

15. I am aware of the assessment methods and examination schedule at the beginning of the course

23. Newer assessment tools (OSPE/OSCE, MiniCEX, DOAPS) are duly utilized to facilitate learning and judgment of learning

24. The best part of the course you appreciate /enjoyed till now.
The different teaching methods employed by the staff
Going to all posting and going wards to treat patients
Peripheral Postings
Clinical postings
I got to learn more in Paediatrics posting
Posting, where we are allowed to assess and assist in treating the patients
Out postings in help to interact with the people and the knowledge we get from our seniors in postings like sports, OMT, Ortho.
Postings
Clinical postings
The staff's approach towards teaching us, the medical postings and the availability of teaching equipment.
Clinical postings
Postings
Peripheral postings
Orthopaedic posting
The CBR postings, where we conducted an awareness talk on menstrual hygiene among the high school children and had a positive interaction.
Knowledge gained from discussions at hospital postings and interaction with patients.
Exposure to patients from the very beginning, postings in different departments, out postings and the fact that every department teaches a different set of skills
We get to learn a lot in postings
For posting we get to learn a lot and also KAHER athlete meet the unity for the institute inspire the students to participant
Clinical postings
Postings give good exposure to us. We learn many things.
The clinical posting held at Vrudhashram (old age home) was a fun learning experience.
Clinical postings are very helpful

No suggestions were given
